

## Science & Survival

3 January 2021

### Exponential Brilliance lives up to their name

I would like to thank Exponential Brilliance for their incredible assistance this past year. It has only been an absolute pleasure to work with Marlise Beverly. She not only helps irrespective of the query you throw at her but what she tackles, she does with care and precision.

I would highly recommend this company to any other NGO out there looking for reliable and affordable service.

Thank you both Marlise and Amanda so being there for Elephants Alive. We greatly value your service.

A handwritten signature in blue ink, appearing to read "Michelle Henley".
